Assignment 1

Extract the [Assg1.zip](#) archive file to get the following resource files:

1. Assg1.cpp
2. Marks.txt
3. Student.h

Compile and run the Assg1.cpp file. Next is the output of the program:

```
1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]: 1
Brady 47 D
Alice 50 C
Kevin 80 A
Cindy 60 C
Kathy 71 B
Ahmed 58 C
Press any key to continue . . .

1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]: 2
Press any key to continue . . .

1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]: 3
Press any key to continue . . .

1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]:
```

Complete the implementation of Assg1.cpp program to correctly list out student grade results (sort by name / sort by grade) as shown below:

```
1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]: 2
Ahmed 58 C
Alice 50 C
Brady 47 D
Cindy 60 C
Kathy 71 B
Kevin 80 A
Press any key to continue . . .

1. List results (original list)
2. List results (sort by name)
3. List results (sort by grade)
4. Exit

Enter your choice [1, 2, 3, 4]: 3
Kevin 80 A
Kathy 71 B
Ahmed 58 C
Alice 50 C
Cindy 60 C
Brady 47 D
Press any key to continue . . .
```

Need to be sorted
by grade then by
name
